A of my compliments to my friends and patrons, I would call attention to my fail stock of fancy Cassimeres, Cashmeres, and Plushes, now in store, selected by myself from the latest eastern importations. The goods this season comprise handsomer designs and more superior fabrics than ever before, and I would advise my friends to select early while the assortment is large and choice patterns can be procured. Of Cloths I have a superior supply, of all the varied shades of bronze, brown, olive, blue, and green, of Dumor & Masson's make, suitable for Dress, Frock, and Morning Coats, and, as usual, black and fancy colors, of every manufacture.

JOHN A. ROEDER, MERCHANT TAILOR AND CLOTHIER,

BEGS LEAVE TO INFORM HIS former customers, and the public generally that he has removed his Clothing Store from his old stand, Market street, between First and Second, to his new house on the corner of Clay and Jefferson, where he is prepared to serve his customers with everything in his line. His stock of Clothing is one of the most complete in the city, comprising every article pertaining to GENTLE. MKN'S APPAREL, from the most dandified Broadcloth to the cheapest Linsey garment.

Thankful for the patronage heretofore so liberally bestowed upon me, I would be gleave to ask a continuance of the same, assuring my friends that they will not leave my store without being satisfied.

Of the sewing machines, Singer of New York, and Mangin of Lyons, France, take gold medals, the other American machines silver or bronze medals. The jury awards a medal to the French machine, not on account of any general superiority over the American machines, but because of a new improvement which is thought to possess value. (The reader will recollect that the juries were instructed by the Prince Napoleon to look particularly for new ideas and new principles not heretofore brought to public notice.)

Colt's guns and pistols, as might have been expected, have been scrifteed to the national amourpropre, and it is not believed that their inventor has received any reward. It is at least certain that he will not obtain more than a third-class medal or an honorable mention. These instruments met with immense opposition from the start, on the part of the French members of the jury and the large number of competitors from France and Belgium, and thus the few friends of the Colt pistol who were found on the jury were overpowered.

Richmond's machine for cutting iron for steam boilers, &c., receives a silver medal. The manufacture of this machine is to be commenced immediately in France, and the inventor is in a fair way to receive large profits from its sale.

Some difficulty has arisen in regard to the silver medal awarded to the piano of Ladd & Co., of Boston, but it is not believed that the decision has been definitely changed.

Lieut. Maury's maps and charts have received a medal, but I have not ascertained of what class.

Thus about twenty gold and silver medals are certain, which gives a medal to every eighth exhibitor, a higher proportion of first class medals than will be received by any other nation. There may be more than these awarded, and without doubt there will be several bronze medals and honorable mentions, but these have not yet transpired. Then, again, when the grand council meets to inspect the awards of the individual juries, and to "eliminate" an overplus of awards, some of the American exhibitors may be cut down. However, the result will soon be known, as notice has already been given to the exhibitors cocupying the transept of the palace, that they must in a short time remove their articles, in order that the whole of the grand gallery may be free for the ceremony of the distributiou of the medals.

To-morrow a trial of life-preservers, life-boats, and military bridge-boats is to take place on the jurymen; and since the United States are well represented in this class, it is possible that we may be awarded another medal.

The encouragement thus far met by the American inventors who have brought their inventions to the exhibition has been so satisfactory, in a pecuniary point of view, to say nothing of the honor, that it will be for a long time a source of regret that more of our useful inventions had not been brought over; and this remark applies particularly and several other cities. FROM FORT KRARNEY.—Mr. R. B. Toler has arrived at Kickapoo city from Fort Kearney, and reports to the Pioneer that all was well at Kearney. There were a good many reports at Fort Kearney about Indians, but none were visible. Mr. Toler says:

At Thirty-two Mile creek, 8 miles beyond the Little Blue, met a large war party of Cheyennes, who appeared very hostile. They stopped the train and offered the wagoners the privilege of fighting with them, or a division of their provisions, and then made a compact to meet the same party six weeks from that date on the Blue, and give them as much fight as they wished. The wagoners are at this time preparing to go back and give them a report week.

Kossuth, Mazzini, and Ledru-Rollin's manifesto to the Republicans of Europe. They say that now that Sevastopol is the first word of a grand war in which the people of Europe are to have the last word. The time has now come for action; unity is the one thing needful, and they offer themselves as the centre whence an initiative may spring. For Italy, Hungary, and Poland, revolution is war; they need allies and a favorable disposition of chances; for France and the rest it is merely an internal movement, and they have but to be unanimous and to will. The beginning of the war appeared to offer hope to the dismembered nationalities; the peoples were deceived by it; now those delta have an appeared to offer hope to the dismembered nationalities; the peoples were deceived by it; now those week.

In two years the French republic form for public system of 1792 by the mere force of a principle swept France of enemies and rebels, and transformed French society from foundism to fraternity.

During the two years past Despotism and Constitutional Monarchy, allied, have shed the blood of one hundred thousand men and wasted labor to the extent of \$600,000,000, with no result but making a few ruins on the shores of the Black Sea

general Indian war.

It is quite evident to us that all these reports are very great exaggerations, particularly in the number of Indians gathering on White river.

American Prizes at the Paris Exhibition.

PARIS, Thursday, Sept. 27, 1855.

We know now, almost to a certainty, the number and the character of the awards which will be received by the American Exhibitors at the great conomy of the human frame manufacture carbon? M. Andral has declared to the Academy of Science. The liberal party is from this time forward responsible for all the blood shed on scaffolds and the lady turns of the only force which could meet the revolution of 1849, the collective force, is at an end. The editor of the Louisville Journal repeats the ridiculous assertion that the Democracy of Pennsylvania refused to indorse the Kansas Nebraska bill. He publishes the rejected resolu tion, but takes good care not to publish what was passed. After a committee has prepared resolu-sylvania stands, official: tions it is not common to adopt one on the same subject, with no difference of sentiment. The Democracy of Pennsylvania are a good deal sounder on this subject than the editor of the Louisville Journal, yet the latter scribbles about the Abolitionism of the Pennsylvania Democrats.

What has the editor of the Journal to say about the Republican party? It is the party in favor of the South, is it not? It is opposed to the Democratic party, and the Democratic party is Abolithe Kansas-Nebraska bill, according to the editor of the Journal, the Republicans must be in favor

The editor of the Journal ought to go on and correct the ludicrous blunder both parties have fallen into. Perhaps this is the mission the senior editor of the Louisville Journal is now upon in the East. Just think of his exhorting the brethren in a Know-Nothing lodge, thus-

There is no telling what a party is from what it does or says, Louisville Journal being judge.

The World Stirring.

This world of ours can't jog along in peace. There are too many restless people in it that have something to gain and nothing to lose. Europe has taken up the old trade of war, which furnished aliment to the craving appetite for excitement. She is likely to have enough of it before she is done. The old hereditary enemies, England she is done. The old hereditary enemies, Enganger and France, are united in a struggle that promises employment for years to come. They have not had time to fall out yet, having been too busy had time to fall out yet, having been too busy busy had time to fall out yet, busy had time to fall out yet, having been too busy busy had time to fall out yet, having been too busy busy had time to fall out yet, having been too busy busy had time to fall out yet, having been too busy busy had time to fall out yet, having been too busy busy had time to fall out yet, having been too busy busy had time to fall out yet, having been too busy busy had time to fall out yet, having been too busy busy had time to fall out yet, having been too busy busy had time to fall out yet. thing. The glory of the victories so far has fallen to the French, and the nephew of his uncle will reap the honor of complete success, if it be allowed. are to follow. Austria, Prussia, and the lesser powers will be involved sooner or later in the contest. As to the Turk, poor fellow, what is he fighting for? It would puzzle him to tell. In the general melee, his chances for independence are slender enough. Perhaps he thinks half a dozen masters are better than one, as they may fall out amongst themselves, and he may thereby gain

Whilst this old game of war is playing there is not much room for novelties. A new element may come in, perhaps. The revolutionists of Europe may strike for freedom, often won and lost.

Frightful Railroad Accident—Fall of a Bridge and Train. The Troy Times gives the following account of

an accident on the 15th inst., at Shushan, on the man, who went there to demand money due from Troy and Rutland Railroad, New York: As the train came in sight of a covered bridge one mile north of Shushan, the engineer saw a one mile north of Shushan, the engineer saw a man on the top of the bridge, motioning for him to stop; he immediately reversed his engine with a full throttle, and whistled on brakes; by the time the engine got to the farther end of the bridge, the train came to a dead stop, and the bridge then possession of the polls and insulted and abused voters, as they did here. They deny their guilt in the same way. They saw no disturbance at the water, and the water now is from four to six foot day.

> There were about thirty passengers on board. The bridge was undergoing repairs, and there was one of the workmen on top of the bridge. When the train struck the bridge, the engineer and fire-

> man saw that it was going down with them, they dropped down against the boiler, and so went down with the engine and bridge.
>
> The mail agent tried to open the door, but could not, and so they went down. The baggageman and brakeman went down on the platform, and the public there were no use in impring as it was thought there was no use in jumping, as it was sure death any way. The passengers and men got out through the rubbish and fragments, some wet and considerably frightened. No one was killed or mortally wounded. The man on the top of the bridge went down with it and was severely injured.

The expressman had his head cut badly, and one passenger received some flesh wounds in the face, and one hand was considerably injured. Several other passengers received slight injuries. The cause of the accident was the carelessness of the men who had charge of the repairs of the bridge. They had removed a bolt from the bridge, and omitted to put out any signals to stop the

THE FREE-LOVE FIZZLE.—The Free-love troupe have not succeeded so well in New York with their public performances as they expected they would after the recent very flattering notices of their newspaper organs. Probably, but for the undesired attraction which their orgies presented to the police, they might have continued to draw full houses for a time, and replenish their treasury. The presence of the police, however, acted like magic in deitroying all the romance, and convortmagic in detroying all the romance, and convorting the scene into a very vulgar and inharmonious exhibition of human folly. The fairy Free-love palace of the cuter world's imagination vanished before the magic reflection of Capt. Turnbull's star, and the fancied bowers of pleasure became rather unexpectedly transformed into the cheeress prospect of an unpoetic lodgment in a narrow

They have rudely drawn aside the veil, and exposed vice and humbug in their shabby garments and repulsive aspects. The former journal, we observe, is disposed to complain of the rude, unsympatnizing conduct of the police, and speaks regretfully of the ludicrous light in which the Free-lovers have been made to appear, but the public will shed no tears over the sudden collapse of the new ism, intended to supply upper-tendom with an equivalent for Water street dance houses, in which Jack enjoys himself. THE COLORED NATIONAL CONVENTION .- On Thursday evening this convention, which has been in sessionin Philadelphia several days, adjourned sine die. Previous to the adjournment a letter from a Mr. Handy, of Baltimore, eulogising the Repualic of Liberia, was read, and created much excitement. The Philadelphia Sun thus reports the scene that followed:
Several members expressed themselves as de-

termined to have their rights on this soil on which they were born, and never would they aid the cause of colonization.

Mr. Dowing, of Connecticut, spoke against the cause of colonization, concluding the remarks by a motion to treat the letter with a contempt never perhaps ever heard of before, viz: to burn it—and on this motion he demanded the previous question.

The motion to burn was agreed to by a large majority. Several voices were now heard at this point

"Burn it on a stake," "Here are matches," "Burn the letter and singe the writer." Among those who voted against the resolution was Fred Douglass.

Mr. Dell said those who had voted to burn the

letter would lynch him if they could; yes, they would cut his throat.

Rev. Stephen Smith thought that the disposition of the letter was unchristianlike and unprecedented. He had hoped that the members of the Convention would have been guided by a bet ter spirit than to have passed such a resolution.

Resolutions were adopted recommending the Massachusetts law throwing open the public schools to all colors: recommending young colored person to learn trades, or secure places of profit and trus in stores, and not consent to work in places of amusement where a distinction is made in favor of

the American steam frigate. On arriving near the scene of action, the Rattler manned three of her own boats, and these, with the American, at tacked the pirates. Lieutenants Pegram and Rolando, with the launches of the Powhatan, attacked them with volleys of musketry, clearing the decks of the two largest, then boarding and driving the pirates overboard at the point of the bayonet. The latter fought with great desperation.

A young American marine, named Adamson, was
shot through the groin.

In this junk was an immense quantity of treasure, said to amount to \$200,000, and the desperation with which here erew fought may be judged of frem the fact that even after the Americans gained the deck they were encountered hand to hand. The officers employed estimate the number of guns taken at two hunired, large and small, and the pirates at one thousand, five hundred of whom were killed.

NEW PRINCIPLE! NEW REMEDY! NO POISON! RHODES

Fever and Ague Cure, Or Antidote to Malaria, FOR THE PREVENTION AND CURE OF Fever and Ague, or Chill Fever; Dumb Ague, and other Intermittent and Remittent Fevers; also, of Bilious Fevers, accompanied by Typhoid
Symptoms: Typhoid Fever, Yellow
Fever, Ship and Jail Fever, General Debility, Night Sweats,
and all other forms of
disease,

WHICH HAVE A COMMON ORIGIN IN MALARIA OR MIASMA. THESE DISEASES ARE COMMON Of any one paying a high price for an article when the same thing can be had for a less price, and at the same thing can be had for a less price, and at the same time as good in every respect, (and better in some), as the high priced "article." Carpenter & Swymmer make any cause of the united States; but where they prevail, North, South, East, or West, they all equally spring from the same missnal cause. The equally spring from the same missnal cause. The the city. For brilliance of tone and finish, they are unequalled. Another great item is, they are put up with only one glass, so that you need not have your pockets double lined to ensure its safety, if you should wish to carry it three squares. The double glass is of itself statistics, it adds no beauty to the picture—makes it none the less liable to damage, and is only a feeble breast work for a weak enemy.

CARPENTER & SWYMMER, Daguerreotypists, co22 517% Main street, bet. Third and Fourth.

Wabster & Brother, Daguerreotypists & Wich meuralizes the poison whenever it comes in

It of its bancful influence, and thus restores and pre-serves health.

The remedy is believed to be entirely new, and un-known to any but the proprietor, who distinctly claims the following extraordinary results from its use:
It will instantly check the ague in persons who have suffered for any length of time, from ONE DAY TO TWEN-TY YEARS, and by continuing its use, according to the directions, a radical cure will be effected; the patient continuing free from the complaint for ever; unless sub-sequent exposure to malaria should make its use again necessary.

necessary.

In its operation upon the poison in the system, it will immediately relieve all the distressing symptoms of billious or ague diseases, and when the disease is cured, i will entirely prevent the accession of GENERAL DEBILITY AND NIGHT SWEATS, Which so often follow the administration of other medicines. The patient at once begins to recover appetite and strength, and continues to improve until restored to perfect health.

By its use, Fever and Ague may be banished from every family and class in the community; farmers, mechanics, and all laboring people may be using this article as a PREVENTIVE.

And pursue their respective avocations in perfect safe-ty from ague and bilious attacks during the sickly sea-son, which is often to them the most valuable part of My work is all warranted. No pictures now go out of my room but those made by myself.

Solutine, including hands.

THEODORE HARRIS,
Kimball's old stan 1, 477 Main street,
Between Fourth and Fifth streets.

To the Public.
LOUISVILLE. KY., Feb. 5th, 1855.
Mr. Solokons—Dear Sir: I called upon you at your office, on Fourth street, in December last, and told you hat I had purchased several pair of Spectacles at different stores, but had never obtained any that did not cause great pair and satigue to the eyes, but am happy to state that the pair I purchased of you suit beyond my expectations, by day and candle light. I have found my sight improve so much since I have used them, that I cannot sit down and read small print without them.

Lower of the Cure in the most valuable part of the eyes in success has been so complete and unvarying as to have fully proved these assertions in favor of its extraordin y mere dies. Here dies at the call was still worse for ague sufferers, all their remedies or treatment, whether scientific or emissions, and what was still worse for ague sufferers, all their remedies or treatment, whether scientific or emissions, and what was still worse for ague sufferers, all their remedies or treatment was at the call of its extraordin and warying as to have fully proved these assertions in favor of its extraordin y remedies, its success has been so complete and unvarying as to have fully proved these assertions in favor of its extraordin y remedies, its success has been so complete and unvarying as to have fully proved these assertions in favor of its extraordin y remedies, and they remedies or treatment, whether scientific or emissions, and what was still worse for ague at the date of its introduction, they seemed incredible to many, even of the United States, its success has been so complete and unvarying as to have fully proved these assertions in favor of its extraordin y mere declarations were made, at the date of its attraordies, and what was still worse for ague and bilious attacks during t

depends sorely upon destructive poison.

Now as a proof that the remedy is not only valuable on account of its power to cure diseases, but that it is also WORTHY OF PUBLIC CONFIDENCE,

BECAUSE OF ITS SINGULAR AND ENTIRE HARMLESSNESS, The following certificate, from one of the most celebrated chemists in the United States, has been obtained and a copy of it is attached to every bottle: "I have made a chemical examination of Rhodes Fever and Ague Cure, or Antidote to Malaria, and have tested it for Arsenic, Mercury, Quinine, and Strychnine, but have not found a particle of either in it, nor have I found any substance in its composition that would prove injurious to the constitution.

"JAMES R. CHILTON, M. D., Chemist."

It is a stubborn fact, therefore, that this Remedy is destined not only to relieve the human family from malarious diseases, but to do an equally good work by preventing the taking of other medicines which do harm. The entire absence of any baneful ingredient makes this Remedy, not more valuable as a Cure, than it is as a preventive. this Remedy, not more valuable as a Cure, than it is as a preventive.

No class of disease is so easily managed as the one under consideration, if the medicine be taken in advance. This is owing to the diseases being produced by one and the same causes, and therefore all, both residents and travelers, should protect themselves by the timely use of this preventive, and not wait for the poison already jurking in their veins to develope itself in a violent attack. Take the Cure as a preventive, and so destroy the poison before it does harm.

Full directions and advice as to liet and Habits of life prepared by a distinguished Physician long resident in a Bilious climate now accompany each bottle.

It will often be found necessary to precede this medicine by a mild catharde or antibilious purgative. The very best thing for general use is a moderate dose of Castor Oil, the object of which is to cleanse the stomach and free the biliary passages. Remember that where this is necessary, or there is costiveness, it MUST BE TAKEN, or the operation of the antidote will be seriously obstructed.

ONLY CAUTION.

ON LY CAUTION. In certain specified cases, pour the contents of one or more bottles of the Cure into shallow vessels (dining plates), and place them in sieeping rooms; for the vapor rising from the medicine, and also the air wafted across, or circulated over the dregs of it, after the liquid is evaporated, will counteract and destroy, to a degree is evaporated, will counteract and destroy, to a degree commensurate with its exposure, the miasmata of poson contained in the apartment. This mode of exhibiting the Cure should likewise be resorted to when very young infants are exposed to malarious situations. The bottles in which this medicine is put up have the words "Khodes' Fever and Ague Cure" blown in the glass, and on the outside wrapper is the name of the medicine (the copyright of which is secured), and the signature of the proprietor. These precautions are adopted to prevent counterfeits and ientations.

The reliance for its success is entirely upon its actual Merits wherever introduced and used. These will be considered sufficient.

Prepared and sold by the proprietor,

Extract of a Letter from Professor Fletcher, who was cured while engaged at Brown University, Proc., R. I.

INDIANAPOLIS, IND., March 1, 1855.

James A. Rhodes, Esc.—bear Sir:—Yours of 15th ult. has been received, and I am glad to hear that a medicine so efficacious is to be introduced into this Aguish country. I have the greatest confidence in its success, and can reassure you of its happy effect upon me in entirely breaking up the chills and leaving me strong and healthy.

I like the statement on your wrappers that you will let the medicine stand on its own merits, and standing thus, I am most sanguine of its success.

I expect to travel over a large portion of our State this spring, and I shall have abundant opportunity to recommend it verbally. Wherever I go I shall take great pleasure in thus testifying to its merits, and if you will instruct your agent to let me have a few bottles, I will carry them with me to distribute for your benefit.

In haste, I remain, truly yours,

MILES J. FLETCHER.

HAD THE AGUE FOR TWELVE YEARS!!

HAD THE AGUE FOR TWELVE HEARS::

PROVIDENCE, June 29, 1855.

Having been informed of the illness of a poor, but worthy woman, who has not been free from Fever and Ague a month at a time for the last twelve years, I supplied her gratuitously with Rhodes' Fever and Ague Cure. She took in all four bottles, which completely restored her to health and strength, and as four months has now elapsed, there is no reason to doubt the permanency of the cure.

an also aware of many other cases in which it has a seed, and have never known it to fail. am also aware of the area and also aware of the area area and have never known it to fail.

C. A. P. MASON, Apothecary.

MR. J. A. RHODES:—Please express me four dozen of your Fever and Ague Cure—send it immediately, as 1 am nearly out. It has given satisfaction. Yours truly, R. W. GAMBLE.

PINE RUN, MICH., July 21, 1855.

DR. J. A. RHODES.—Dear Sir:—Your Cure for the Fever and Ague has thus far performed wonders. It has not failed in one instance to perform a quick and permanent cure. Some who have been troubled with the distressing disease have been RNIRELY CURED by using only ONE bottle of the CURE. Please send us immediately four dozen, as we have but three bottles remaining. Truly yours,

LATHROP & MCLEAN.

probably never get rid of:

SOUTH DEDHAM, MASS., August 25, 1855.

DEAR SIR:—You wished me to write as to the health of my patient, after taking the Fever and Ague medicine you sent, which I now take pleasure in doing.

The patient was my mother. She has lived in Alleghany county, N. Y., for five years, and last fall, for the first time, had the Fever and Ague, which she cured in a short time by the use of * * * * Fever and Ague Pills; but last March she came here to live with me, and in May was taken again with it. She has taken the medicine which you sent—she took the last some four weeks ago—and she seems to be cured of the disease, and her health is quite good now, but her joints and bones seem to be sore, and pain her some.

The medicine I think is very good, and I could recommend it to Ague sufferers, and I would procure it before any other within my knowledge for that disease.

Yours truly,

CHARLES B. KNOWLTON.

PROVIDENCE, Ill., Aug. 9, 1855.

DEAR SIR:

"Imight as well mention from the that every bottle that I have heard of being sold has given good satisfaction. The agents that I have left medicine with say that it ranks among the best of patent medicines, and that after its good qualities once become known there will be more of it sold than of any other article of medicine in the State.

Respectfully yours,

PANTEGO, N. C., Aug. 27, 1855.

Dr. James A. Rhodes—Dear Sir: I take pleasure in assuring you of the complete recovery of my daughter from Fever and Ague, of which she has suffered almost without intermission for over five years past, although I had tried various kinds of medicine and treatment.

At my request Mr. Reddick ordered from you two dozen, and I can say that it has not only cured my daughter, who took two bottles, but every one who has used it. This part of the country is very swampy and sickly.

With this Mr. Reddick sends you the money for three dozen more.

Respectfully yours.

JAMES GAYLORD.

LETTER FROM A POSTMASTER.

MAXWELL, Delaware co., O., Aug. 19, 1855.

Mr. J. A. RHODES—Dear Sir: Your medicine has met with the most favorable success in this neighborhood. I have about five bottles left. I gave it to them at first "if no gure no pay," although I was not a uthorized by you to do so; but I took the responsibility on myself. But not a bottle has come back, and as I am almost out of the article; I wish you would forward me one gross of bottles if you see proper to do so, and I will be punctual in payment. I inclose fifteen dollars og, the medicine I have received, for which please send me a receipt. Ship the Cureto me as soon as you can; there never has been as much Chills and Fever since I lived in the State as at present. Yours, &c., state of the state as at present. FEVER AND AGUE MEDICINE. In another column of to-day's paper will be found an advertisement for "Rhodes' Fever and Ague Cure." We are not in the habit of puffing medicine, but desire to say, for the benefit of the afflicted, that Wm. N. Rowe, merchant, Sharpeburg, who has it for sale, informs up that he has sold several dozen bottles, and in every case it has effected a cure. This proves the medicine to be good, and we take pleasure in bringing it before the no-mes of the public. Ode Fellow, Boonsbore', Md., Sept. 4.

REW CERTIFICATES.

IR. SOLOMONS; SIR: THE benefit I have derived from the Spectacles obtained from you, induces me to express the pleasure I have received from them. They suit my sight to admiration, by candlelight as well as day; I read with the same case as when a boy, which I could not do with any other glasses I have used. Yours, truly, truly, LOUISVILLE, Dec. 23, 1884.

LOUISVILLE, Dec. 23, 1884.

MR. SOLOMONS: Being compelled to wear Spectacles, I have never been able toget a pair but what made my eyes ache—I have tried a great many glasses, but always failed, until I obtained a pair from you. I can see by day or candlelight for any length of time, with the greatest case and comfort. Mrs. Wells is very much pleased with her glasses.

I remain yours, truly,

C. WELLS,

No. 664 Jefferson street, nextdoor to Preston. NEW CERTIFICATES.

LOUISVILLE, Jan. 18, 1866.

MR. SOLONONS: Sir—When you first arrived in this city, I called with Mrs. Bettle at your office, and purchased four pairs of your eatent Spectacles. We found them superior to any we had ever used before. They resilized more than we could have expected. We can now see as comfortably as when a girl and boy.

I remain yours, respectfully, see as comfortant,

LARGE ASSORTMENTS OF LUM-

BY TELEGRAPH.

NEW YORK, Oct. 23. Whis Convention.—The irregular Whig State Convention assembled at 12 o'clock this noon, at Constitution Hall. The names of 60 delegates, so far, have been reported, and it is said three-fourths

suited to our city and country trade. We advise dealers to attend, they will doubtless secure bargains.

**P Some think that they can get better oysters and coffee, by paying double the price that Burton asks, but they are sadly mistaken. We have tried his oysters, hams, eggs, and coffee, and better cannot be got in the city, say nothing about the price; but, remember, the price is just one-half of what is charged at other res.

Tar, have been reported, and it is said three-fourths of the State is represented.

The Convention was called to order by S. S. H. Ward, of New York, on whose motion a temporary organization was effected, by appointing J. h. Copeland, of Orleans, Chairman, and H. C. Mills, of New York, and A. C. Woodrufi, of Niagara, Secretaries. Committees on permanent organization and credentials were appointed, and the Convention adjourned till 3 P. M.

tion adjourned till 3 P. M.

This afternoon the Convention assembled at 3 P. M. The committee on a permanent organization reported the following officers: Thos. H. Bond, of Oswego, President; B. H. Lewis, of New York, Cyrus Swan, of Dutchess, Jones C. Heath, of Ren-selaer, J. T. Blanchard, of Saratoga, J. M. Orrell, of Chemang, and J. B. Parker, of Erie, Vice Presidents. Secretaries, H. C. Mills, of New York, T. C. Welch, of Erie, Jno. T. Clayton, and A. C. Woodruff, of Niagara, and S. P. Wilcox, of Herkimer. A motion to appoint a committee to appoint State officers, drew forth a debate, but was not acted upon, and Convention adjourned till seven, P. M.

CUMBERLAND, Oct. 23. The trial of Miller for the murder of Graff, the young man in the employ of Dr. Hadel, was brought to a close to-day by a verdict of guilty of murder in the first degree. The evidence was nearly the same as that on his trial for the murder of Dr. Hadel.

Abolition Convention.—A convention of radi-cal Abolitionists assembled here to-day. They propose to find a remedy for slavery in political agitation. The convention is thinly attended. It will last three days.

The schooner owned by Thos. Adams & Co., of Smithfield, Va., was capsized in the Chesapeake, during the storm of Friday night last, and all hands, it is supposed, were drowned. The schooner was bound for Baltimore, BALTIMORE, Oct. 23.

The Rochester firemen arrived here this after on and were enthusiastically received. Boston, Oct. 23.

Mrs. Catherine Merrill, who was so shockingly stabbed by her jealous husband, David Merrill, on Sunday, in East Boston, died of her injuries this morning.

Merrill, who attempted suicide by stabbing him

self, after the assault on his wife, is at the hospital in a fair way for recovery.

Kansas Election.

Sr. Louis, Oct. 23. A letter from the Shawnee Mission, of the 16th inst., says Whitfield's official vote for Congress, was 2,760 at the first election.

NEW YORK, Oct. 33. The Washington correspondent of the Herald writes, that it is reported that Mr. Crampton, the British minister, asserts that the late attempt to implicate him in the recent violations of our neu-trality laws, was the result of a conspiracy on the part of Forney, to embroil the two governments, and at a proper time he will show this to be the case. He intimates, should he be recalled, that no successor will be appointed.

BALTIMORE, Oct. 22. AMERICAN CONVENTION .- The Convention of the American party in Virginia, held at Lynchburg, adjourned finally on Saturday. Resolutions fully indorsing the Philadelphia platform, and especially that portion in relation to slavery, were passed. They also recommend an open organization, and that the nomination of a candidate for President be postponed to a period not later than the first of June.

MEDICAL.

To the Afflicted. TR. DURBIN WOULD INFORM
the citizens of Louisville, and the public in general, that he has returned to his office, on Market street, four doors above first, at S. Wilson's Dry Goods Store. He is prepared to cure the Chills and Fever, and all other diseases; it is a well known fact that no person ever had a chill after taking his medicine. He keeps on hand, at all times, his well known and celebrated White

in the world for that dread disease, and medicines too tedious to mention.

The above Syrup will cure the Whooping Cought The above medicines can be had at my office, or at Mr. Cooper's, corner of Seventh and Green streets, and at James Fisher's, corner of Fifth and Green sts.

J. C. DURBIN. Private Medical Treatise Physiological view of Marriage:

BY M. D. LA CROIX, M. D., ALBANY, N. Y. TWO HUNDRED AND FIFTY pages, and 130 fine plain and colored lithographs and plates. Price only 25 cents.

The Sent free of postage to all parts of the United States.
Cheapest book ever published, and containing nearly double the quantity of reading matter in that of the

in that of the Fitty-Cent or Dollar Publications.

It treats on the Pysiology of Marriage, and the secret infirmities and disorders of youth and maturity, resulting from excesses, which destroy the physical and mental powers, and diseases arising from indiscretion, with plain and simple rules by which all persons can cure themselves without mercury, with the author's observations on marriage, its duties and disqualifications, and their remedies; with colored lithographs, illustrating the remedies. It contains many important hints to those contemplating matrimony, which will overcome objections against marriage; none, however, should take this important step without first consulting its pages. It treats of all diseases of females, whether married or single. Hints to those who desire no more children. Strangers who require medical aid, before consulting any doctor, ought to know whether their cases are properly understood by those whom they employ, and thus guard against the imposition of quackery, so prevalent in populous cities. Hence the advantage of a popular knowledge of one's self, such as is given in this work. If medical authorism be the test of talent, and enlightenment be sought from books, let common sense discriminate between truthful simplicity and outrageous speciousness and bombast. Dr. La Croix is a legally qualified physician, and for the last twenty years has been daily consulted upon the different diseases apon which his book treats, personally as well as by etter. Any person sending 20 cents in a letter, postonald, will receive one copy by mail, free of postage, of the dailed Lane, (P. O. Box 879) Albany, N. Y. n that of the Fifty-Cent or Dollar

o directions, safely packed and carefully secured all observation.

"Office open daily from 9 A. M. to 9 P. M., and on day from 2 until 5 P. M. Sunday from 2 until 5 P. M.
